The goal of transforming the field of psychiatry is to overturn the pyramid of mental health services

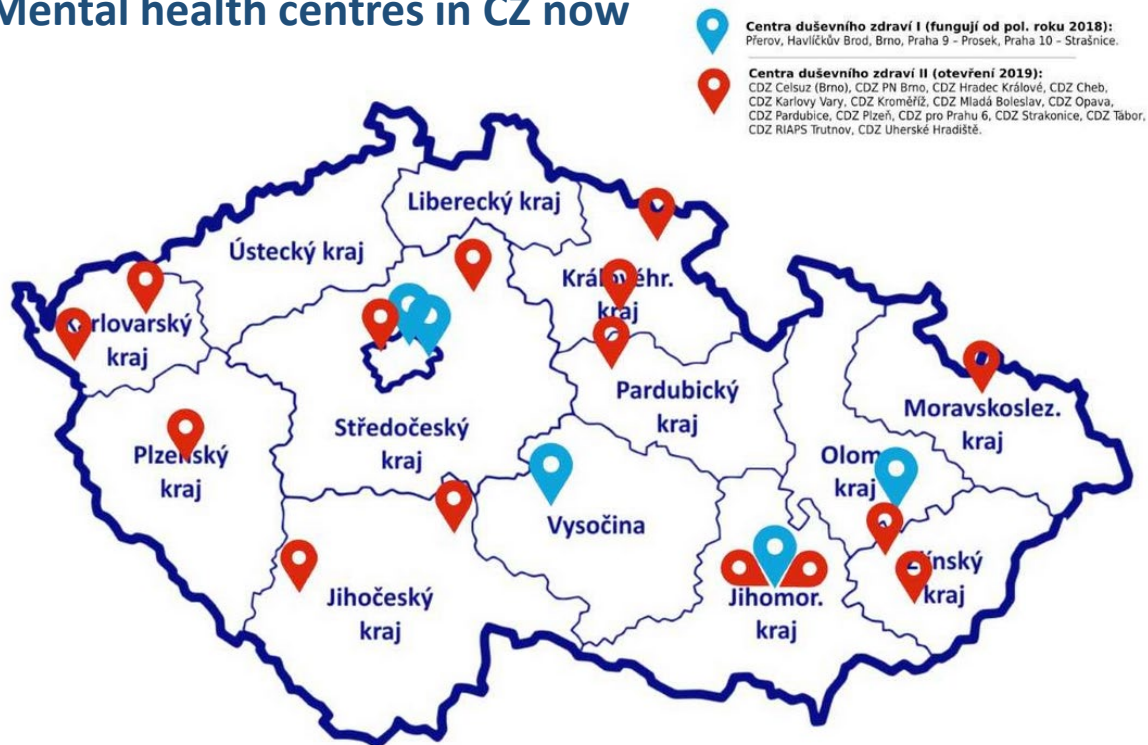

Transformation of Czech Psychiatry

- Started in 2012
- Specific goal: support of human rights of people with mental illness
- 2016-2020 EU projects focused to strengthening community based care (30 mental health centres as new element in MH system), deinstitutionalization, destigmatization, development of multidisciplinary approach, pilot projects in children psychiatry, forensic psychiatry, addiction treatment, gerontopsychiatry, ...
